

# MATH

(Approximately 0 to 2 math questions on the typical Salesperson Exam)

There has been a remarkable decline in the number of math questions asked on the Salesperson Exam. The range is currently about 0-2 math questions on the Salesperson Exams. At this time most Salesperson Exams have no math. **Please remember - This is Not a Guarantee.** The Department of Real Estate can add math questions to the exam at any time.

I. **CALCULATORS** - You may no longer bring your own calculator to the state exam. The Department of Real Estate will provide you with a basic calculator to use.

## II. CIRCLE DIAGRAM Rules

1. Percentage always goes in box "C."
2. Little number in "A," big number in "B," where "C" is less than 100%.
3. Little number in "B," big number in "A," where "C" is more than 100%.
4. The "A" number always gets divided by the other number.
5. Always annualize the figures.
